| <ul><li>6. Accidental releas</li><li>6.1. Personal precaution</li></ul> | e measures<br>1s, protective equipment, and emergency procedures  |
|---|---|
| Personal precautions  | Use personal protective equipment as required. Keep people away from and upwind of spill/leak.  |
| 6.2. Environmental prec   | cautions  |
| Environmental precautions   | Prevent further leakage or spillage if safe to do so. Prevent product from entering drains.   |
| 6.3. Methods and mater  | ial for containment and cleaning up   |
| Methods for containment:  | Prevent further leakage or spillage if safe to do so. Cover the powder spill<br>with a plastic sheet or tarp to minimize spreading. Dike far ahead of<br>liquid spill for later disposal.   |
| Methods for cleaning up:  | Clean-up should be dealt with only by qualified personnel familiar with<br>the specific substance. Cover liquid spill with sand, earth or other non-<br>combustible absorbent material (e.g., sand, earth, diatomaceous earth,<br>and vermiculite). Cover the powder spill with a plastic sheet or tarp to<br>minimize spreading. Sweep up and shovel into suitable containers for<br>disposal. |
| 7. Handling and sto   | prage   |
| 7.1. Precautions for safe   | e handling  |
| Advice on safe handling:  | Avoid contact with skin, eyes or clothing. Use personal protective<br>equipment as required. Wash contaminated clothing before reuse. Do not<br>breathe dust/fume/gas/mist/vapors/spray. Do not eat, drink or smoke<br>when using this product.   |
| 7.2. Conditions for safe  | storage, including any incompatibilities  |
| Storage Conditions:   | Keep container tightly closed in a dry and well-ventilated place.<br>Keep out of the reach of children.<br>Store at -20 °C.   |
| Suitable packaging  | Must only be kept in original packaging.  |
| Incompatible materials:   | None known based on information available.  |

### 8. Exposure Controls/Personal Protection

#### Attiention:

Usually, the product of concern would be present at the intended workplace in miniscule amounts, while surrounded by considerable amounts of other flammable, toxic or otherwise hazardous substances. Therefore, the employer/user should perform a risk assessment prior to the use of this product.

Aphidicolin

#### 16.2. Department issuing this SDS

Quality systems and regulatory affairs

#### 16.3. General Disclaimer

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication.

The information given here is designed only as guidance for safe handling, use, processing, storage, transportation, disposal, and release and **is not to be considered a warranty or quality specification**. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless explicitly specified in the text.

#### 16.4. The users'/employers' responsibility:

Usually, the product of concern would be present at the intended workplace in miniscule amounts, while surrounded by considerable amounts of other flammable, toxic or otherwise hazardous substances.

Therefore, the employer/user should perform a risk assessment by prior to the use of this product. The type of protective equipment must be selected based on the amount and concentration of all dangerous materials being used in the workplace.

All recommendations included in this document are advisory in nature.

#### 16.5. No © copyright

Fermentek does not claim © copyright on this document.

Fermentek believes that no one can claim copyright on an SDS. This sort of document is but a compendium of common knowledge and published facts.

Fermentek explicitly releases this document into the public domain.
